To whom it may concern,

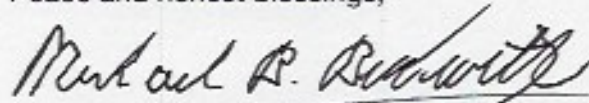

It is my great joy to write this letter of recommendation for Walter J. Hart, dog trainer and founder of Canine Companions, LTD. I particularly support his work training therapy and service dog for veterans, incarcerated youth, seniors and victims of trauma.

His work is not only as a fine dog trainer, but he also has a great understanding of humanity and helps foster confidence in the service and therapy dogs as well as the clients whom he serves.

Walter 's work takes a stand for human dignity and for the power of the unconditional love dogs bring in redeeming and healing hearts and minds that have suffered from the trauma of war, abuse, neglect and general isolation.

On behalf of Agape and our Animal Kinship Ministry, we look forward to creating a strategic partnership with Canine Companions to support bringing service and therapy dogs to those in our communities with the greatest need.

Peace and richest blessings,

A handwritten signature in black ink that reads "Michael B. Beckwith". The signature is fluid and cursive.
